Holiday Houseplants

Poinsettias

Keep your poinsettia thriving by placing it in bright, indirect light and away from drafts. Water when the top inch of soil is dry, but avoid overwatering to prevent root rot. With these simple steps, your poinsettia will stay vibrant all season!

Christmas Cactus

Christmas cacti thrive in bright, indirect light and prefer well-draining soil. Water when the top inch of soil feels dry, but avoid letting them sit in water. Keep them in a cool room to encourage blooms, and enjoy their vibrant flowers throughout the season!

Greens, Greens, & More Greens

We have everything you need to bring the beauty of fresh greens to your holiday decor! Our spruce tips, available in two sizes, are perfect for creating stunning winter planters. Elevate your designs with added textures and colors from our mixed greens bundles, or choose from our selection of white pine, cedar, magnolia, and eucalyptus to make your arrangements truly stand out! These versatile greens are perfect for planters, window boxes, or even fresh centerpieces. Pair them with sticks, berries, pinecones, and more to bring your holiday decorating vision to life! Whether indoor or outdoor, make sure your greens stay watered to keep them thriving! For winter planters outdoors, ensure they freeze with plenty of moisture! We also have fresh wreaths, swags, and Christmas trees to complete your festive look!

Keep Your Christmas Tree Fresh All Season Long!

A fresh Christmas tree fills your home with the scent of the season, and with proper care, it can stay beautiful throughout the holidays. Start by trimming an inch off the trunk before placing it in a tree stand with plenty of water—this helps the tree absorb moisture. Keep the stand filled with water daily, as trees can take in a lot, especially in the first few days. Place your tree away from heat sources like fireplaces or radiators to prevent it from drying out. With consistent watering and the right placement, your fresh tree will stay lush and festive all season long!

One of a Kind Planters

One of the best parts of this season is using our creativity to craft something truly special just for you. Whether it's custom planters for your home or local business or beautifully designed wreaths, swags, and centerpieces, we take pride in creating unique pieces that stand out. Let us know your preferences—what you love, your color scheme, or even what you'd rather avoid—and we'll design something perfectly tailored to your style. It's our goal to help make your holiday decor as beautiful and personal as the season itself!
